

CORONAVIRUS

The Parish Council is aware that there will be much concern within the village about the impact this is having on people and that those having to self isolate due to displaying any symptoms of the virus or being in a vulnerable group due to age or medical conditions will feel isolated and worried about not being able to shop or collect medical prescriptions.

We share those concerns and will do our utmost to keep you informed of local help and any information that may be of use.

We have already had offers of help from people within the village and if you need help with any of the following, please contact someone from the list below:

- Shopping – for basic essentials
- Prescriptions – collecting from Doctors / Chemists (NB Pharmacy must have been notified in advance, or prescription script made available to volunteers)
- Appointments – travel to essential appointments
